Since being acquired by FSNA, Rent-A-Wreck® has been reorganized and energized to increase profitability, and new franchises have been added across Canada.

Peakstone Financial Services

Peakstone historically has generated approximately 70% of the total Company revenue through the sale of its insurance products. In 2007 the Company acquired a full-service insurance agency facilitating new sales of insurance products to FSNA's roster of 1,100 locations as well as those outside the FSNA umbrella, the majority of which are in the automotive industry.

Managing General Agent (MGA) Status:

In 2007, Peakstone secured a Managing General Agency status for counter products, meaning that all companies that purchase the insurance product must purchase through Peakstone FS. The Company continues to pursue MGA designations on further products, and in 2009 received such status for a vehicle liability program.

The Sonoran division of the Company is also the Managing General Agent for Admiral Insurance ChiroFutures Insurance Program.

Auto Rental Resource Center (ARRC)

ARRC was developed to provide goods and services for independent operators on how to manage and run a rental car operation. ARRC provides members with technology, state-compliant rental agreements, insurance, training and support.

The system is a "minor league" to the U-Save franchise system where members are encouraged to grow into a full-scale franchise. Future plans call to develop a similar division of the Association in Canada. The Association currently has over 600 active members across the US.
